MANOFERM

swiss made

Hand disinfectant liquid

Ideal for frequent use

MANOFERM is an alcohol-free hand disinfectant designed for frequent use across facility and operational environments. It supports reliable hand hygiene across workplaces, public facilities, production sites and other shared environments where hand disinfection is part of everyday routines.

ADVANTAGES

Designed with frequent use in mind, MANOFERM combines proven microbiological efficacy with a broad spectrum of activity and a formulation that does not cause skin irritation. Alcohol-, formaldehyde- and phenol-free, with short contact times, it supports repeated hand disinfection throughout facility and operational routines.

- Alcohol-, formaldehyde-, and phenol-free
- Ideal for frequent use
- No skin irritation
- Proven microbiological efficacy with a broad spectrum of activity
- Short contact times of 30 sec. or less
- Non-flammable
- Low VOCs
- Fragrance-free (optional with scent)

P337+P313 If eye irritation persists: Get medical advice/ attention.
P501 DISPOSAL: Return contents/partially emptied containers to the point of sale or take them to a special waste collection point. Empty containers, after proper use of the product, may be disposed of with household waste.

Please note that the availability of products may vary in different countries and regions. Contact your local distributor partner for more information. The recommendations regarding our preparation are based on scientific tests and are given in good faith. More detailed recommendations, e.g. regarding material compatibility or microbiological efficacy are possible, only in separate and individual cases. Our recommendations are not binding and do not constitute a guarantee. They do not preclude a company's own testing for the intended purpose and process. In this respect we cannot accept any liability. This is in accordance with our general condition of sale and supply.
