ICEPUR

swiss made

Disinfectant cleanser concentrate liquid for instruments and surfaces

Ideal for instruments, equipment, large surfaces, floors in animal care areas

ICEPUR is a concentrated disinfectant cleanser for veterinary and animal care environments. It is designed for regular use across instruments, equipment, larger surfaces and floors in clinics, practices and other areas where consistent hygiene is part of daily routines.

ADVANTAGES

ICEPUR combines broad microbiological efficacy with effectiveness under dirty conditions, making it particularly suitable for demanding veterinary environments. It is also compatible with many sensitive surfaces and materials and can be used flexibly across a wide range of hygiene tasks.

- Alcohol-, formaldehyde-, and phenol-free
- MEA/SSMA tested
- Compatible with many sensitive surfaces like artificial leather, aluminium 6061, Polycarbonate (PC), Polymethyl methacrylate (PMMA), Polypropylene (PP), Silicone, Polyvinyl cloride (PVC), EVA foam, Stainless steel 316
- Proven microbiological efficacy with a broad spectrum of activity
- Effective under dirty conditions
- Low VOCs
- Non-flammable
- Fragrance-free (optional with lemon scent)

Please note that the availability of products may vary in different countries and regions. Contact your local distributor partner for more information. The recommendations regarding our preparation are based on scientific tests and are given in good faith. More detailed recommendations, e.g. regarding material compatibility or microbiological efficacy are possible, only in separate and individual cases. Our recommendations are not binding and do not constitute a guarantee. They do not preclude a company's own testing for the intended purpose and process. In this respect we cannot accept any liability. This is in accordance with our general condition of sale and supply.

DIRECTION FOR USE

Dilute to a 5% solution (50 ml ICEPUR per 1 l water). Apply with a cloth/floor mop to non-absorbent, non-porous surfaces or instruments. Keep the entire surface wet for the required contact time, then rinse with water. Surfaces and instruments intended to come into contact with food, feed or fodder must be rinsed several times with potable water after treatment. Instruments may also be treated by immersion. Disconnect electrical equipment before application. Do not treat food, feed or fodder directly. For professional use. Always read the label before use. Report any serious incidents related to the product to the manufacturer and the competent authority.

STORAGE

ICEPUR disinfectant cleanser must be stored in its original, intact packaging, carefully closed after use, in a dry, cool place at a temperature between 15 °C and 30 °C, and protected from direct sunlight.

REGISTRATION

- BAG CHZN7840
- BAuA N-120975
- UFI: DFDF-SV50-ETK5-DMJ1

PRODUCT TYPES

- PT2 (Surface Disinfectants)
- PT4 (Food and Feed Area)

ACTIVE INGREDIENTS

Alkyl (C12-18) dimethylbenzyl ammonium chloride (ADBAC (C12-18)) - 13.8%.
